

Teachers in Their Studios

Art teachers inspire and mentor their students to express themselves and live up to their full potential. But we rarely see the connections between their own artistic production and their classroom endeavors. We would like to celebrate a range of unique artist/educators by sharing their studio works with a varied Kentucky audience. This exhibition celebrates the combination of curiosity, subject matter, and effective use of craft and materials that yields significant artists and artworks.

The University of Kentucky Art Education Area and The School of Art and Visual Studies (SAVS) are pleased to announce a first time exhibit of High School Art Teachers from Kentucky October 8 - 30, 2015. This is a call for work of all themes and scales for the NEW gallery space in the recently opened School of Art and Visual Studies building. This exhibition will showcase the work of High School Art Teachers from across the state of Kentucky and will be exhibited in conjunction with the Kentucky Art Education Fall Conference held in Lexington October 8, 9 and 10.
